## Passed FE – Ms. E. Li's Sharing:

Thanks for all your help and I finally got PASS at QP FE.

During the past, as I remember, 3 years, I trust HKCA who really can help me to really understand the knowledge, not really just pass the exam. All tutors are very experienced and knowledgeable. HKCA is the one I introduced to all I know who are on the CPA path.

Thanks again for all the support and wishing all the best to HKCA!

Best wishes...

## Passed FE – Students' Message:

"Thanks Harvey! I am very lucky to be your **MA & FEMC** student~  
\***Thanks again**, Alice and Mike!  
\*I have passed **QP FE this June**. I am very very thankful to all the support from HKCA in this difficult journey.  
\*Please help me extend my gratitude to Harvey Lam, Ken Wong and Linda Ng.  
\*I think the **Master Guides and Mind Maps of HKCA are great**. I could not possibly digest all the details of the 4 modules in such a short time by myself. And they **are easy reference in the exam situation**.  
**For candidates**, time and hard work are the most important. FE cannot be taken lightly. It is critical to spend sufficient time to familiarize with the materials they bring to exam. Since I am not an accounting major, it took me at least 2 weeks of full-time study before the exam date. I know it is not easy for most candidates to take such a long leave but the result definitely pays off.

**Dear Principal Mike,**

Thank you very much that I obtain PASS in QPFEExamine. You have provided me a silent study room and smart revision mind-map guidance. All those are very useful to save time and enhance my confidence in preparing examine. In MD note and class, I can concentrate on key wordings and more exercises and answering flow skill.

**Dear Linda (MA),**

Thank you that I have attended your class. The immediate reaction on your class Q&A session give me a skill to tackle the problems that I do not know the questions during examin. But, I learned the answering steps during class.

**Dear Ken (MB),**

Thank you that you give us details explanation on difficult special topics and cover all items. "Hedging" is one of topic difficult to study. We understand easily through complete your well-organised practice exercises. Key notes will save time for us to remember and present in examine as no same past paper might appear again.

**Dear Harvey (MC),**

Thank you that you review and correct my wordings used in examine to score marks directly through each class practice exercise. You give me a clear Basic concepts and mind map as the special topics are very wide. I can handle easy and confidence to pick this paper in intensive hours.

**Dear Classmates,**

Thank you that all you push me up to pass the examine. A good study atmosphere and Q&A session encourage me very much. "Remember" is very critical to save time and a closer steps to pass. (Study time is limited)

Dear Alice,

Thank you that you provide me the update study room schedule, course materials needed and remind me to pick up the valuable time to issue questions during the class. The snack, biscuit are refilled very fast that we can recover energy quickly for preparing class.

Best regards,

Peter

I am pleased to advise you that I have successfully passed the P C Law Exam in the December 2014 session.

Thanks for your advice throughout the entire course.

It is a difficult exam which I finally got through. It will be always good to have your own study notes for the exam given we are restrained to a three hour period in the exam.

Hi Harvey Sir,  
Just to let you know that I've passed the  
**P7** Exam. Thank you again for your  
great lectures and for marking my  
answer scripts way past the  
submission deadline.

Hi Alice  
Many thanks for your support throughout  
my revision process as well.

I find most help from doing the progress  
tests/ mock exams Harvey Sir prepared  
coz a lot of times I spend too much time  
internalizing the materials without  
knowing how to present them in a logical  
and precise way. Spending time  
familiarizing myself with the accounting  
standards also paid off coz for  
me application of accounting  
standards are relatively easier to master  
when compared to that of auditing  
standards.

Christy
